

## BEAT THE HEAT THIS SUMMER SEASON with

### **INCREASED INCENTIVES !**

Parkland Light & Water Company  
Has two ways to keep your Cool

**#1 Our Ductless Heat Pump program** can help reduce your electric utility bills and mitigate seasonal heat changes. The heat pumps provide your home with higher comfort level as the units provide both **heating** and **air conditioning**.

The **NEW INCREASED** incentive (effective July 1, 2020):

- Homes (site built or manufactured homes) with electric baseboard, wall heaters, ceiling cable or electric forced air furnaces – the Incentive is **\$1,300**

In addition, many manufactures have additional incentives to help reduce the cost of installation.

**#2 Our Ducted Heat Pump Conversion program** for customers who have an existing electric forced air furnace with duct work and want lower heating bills in the winter and the comfort of air conditioning in the summer.

The **NEW INCREASED** incentives (effective July 1, 2020):

#### **Air Source Heat Pump Conversions:**

Homes (site built or manufactured homes) with ducted electric forced air furnaces - the Incentive is **\$1,300**.

#### **Variable Speed Air Source Heat Pump Conversions:**

Homes (site built or manufactured homes) with ducted electric forced air furnaces – the incentive is **\$1,500**.

We encourage you to take part in this program now. If you have questions, please call Mike Porter at 1-503-730-3122 or you can reach him via email at [mike.porter@evergreen-efficiency.com](mailto:mike.porter@evergreen-efficiency.com)
