

**SPRING IS ALMOST HERE!**  
**Will the SUMMER be HOT? Last Summer was sure HOT in the Northwest**

**Install a Ductless Heat Pump and keep your Cool**

Parkland Light & Water Company's Ductless Heat Pump program can help reduce your electric utility bills and mitigate seasonal heat changes. The heat pumps provide your home with higher comfort level as the units provide both heating and **air conditioning.**

The current incentives are:

- Homes (site built or manufactured homes) with electric baseboard, wall heaters or ceiling cable – the Incentive is **\$800.**
- Homes (site built or manufactured homes) with forced air electric furnaces – the incentive is **\$1,000.**

In addition, many manufactures have additional incentives to help reduce the cost of installation.

We encourage you to take part in this program now. If you have questions, please call Mike Porter at 1-503-730-3122 or you can reach him via email at [mike.porter@evergreen-efficiency.com](mailto:mike.porter@evergreen-efficiency.com)
